

**LMS FEATURE****LESSON  
LINKER****Rapidly upload, manage, and track  
Pre-existing Training Materials**

Does your organization have pre-existing training material you want to track and manage electronically? Look no further! The Lesson Linker feature provides the easiest way to rapidly upload your current training content into the Learning Management System (LMS).

Lesson Linker can convert a variety of content forms, such as PowerPoint presentations, to allow you to track and manage your unique content within the LMS. With upload capacity of 2 MB per file and 5 GB of hosting space, Lesson Linker is the perfect solution to hosting, tracking, delivering, and managing your custom training. Build lessons effortlessly and then tie specific standards to each lesson. You can also use your custom lessons in conjunction with other content lessons to create unique training courses specific to your organization's needs.

**Allows you to...**

- Manage and track pre-existing content effortlessly
- Import PowerPoint and other slideshows
- Track and manage custom training
- Tie specific standards to each lesson
- Host content in the Learning Management System

**LESSON LINKER...**

provides the easiest way to quickly upload current training content to be delivered, tracked, and managed through the LMS.
