

LMS FEATURE**STANDARD
LMS****Everything you need to create
The Perfect Learning Environment**

The How to Master Standard Learning Management System (LMS) is an easy-to-use, reliable, and cost-effective platform that includes online tools to manage, track, and develop an effective learning environment. The system interface is designed with the end user in mind, making it simple and easy to use for both administrators and learners. The system supports searchable content for task-based training and can be customized to create the perfect learning environment for your organization. A multi-purpose calendar, certificates of completion and administrator access to marketing materials are all included in the LMS. One GB of storage space is provided as well as A 99% System Uptime Guarantee and nightly backups. The Search-n-Learn On the Spot Training Tool is a unique feature that helps learners find training on an exact topic, even when their LMS is not open. The Standard LMS can also be customized with a wide variety of tools and training content.

Allows you to...

- Import users and groups with ease
- Create hybrid users
- Track, manage, and report on all training
- Use the Search-n-Learn training tool
- Assign credit and print completion certificates
- Access convenient, online support documentation

STANDARD LMS...

provides online tools to manage, track, and help create the perfect learning environment for your organization.
